

LXE'S TRADE IN - TRADE UP PROGRAM

OUT with the OLD - IN with the NEW!

Receive at least \$3000 for a minimum TRADE IN of 10 mobile computers when 10 NEW LXE computers with ServicePass contracts are purchased.

- Upgrade old equipment in time for 2010
- LXE will take any LXE, Motorola®, Psion Teklogix®, Intermec®, Datalogic®, DLoG®, Citadel™, and Glacier™ equipment - whether it is working or not
- Get more for your money by combining this offer with any other LXE offer out there
- All LXE mobile computers are eligible for purchase with this program

LXE'S TRADE IN PROGRAM GUIDELINES

1. Customers must order a minimum of 10 new LXE mobile computers to qualify for the program.
2. Quantity of computers traded in cannot exceed the number of new LXE computers being purchased. One-for-one trade-ins will generate the most cash for the customer.
3. \$200 for each trade in with purchase of LXE computer hardware only, \$300 for each trade in with purchase of LXE computer hardware and ServicePass contract.
4. Trade-In computers must be from LXE, Motorola, Teklogix, Intermec, Datalogic, DLoG, Citadel, and Glacier. If you have equipment from another manufacturer you would like us to consider, please call your LXE Sales Representative immediately. Scanners and accessories do not apply.
5. Qualifying orders must be placed between October 5th, 2009 and December 31, 2009.
6. New LXE equipment must ship by December 31, 2009 to be considered for this program.
7. Serial numbers of the returned equipment must be given to LXE on the Trade-In form. LXE will then provide a RGA number for the return of the equipment to LXE. Please contact your LXE Sales representative for the Trade-in form and instructions on how to get an RGA number. Once the equipment has been received at LXE and reviewed, a customer credit will be issued.
8. Trade-in equipment must arrive at LXE by March 31, 2010.
9. Program MAY be combined with other LXE programs running at this same time.
